PARIS' SPRING HATS HAVE HIGH CROWNS, WIDE BRIMS

Paris, Feb. 5.—High dome-shaped crowns and large, wide-sweeping brims are the prominent features of the new spring fashion in hats in Paris. The smaller toques have a wide brim folded upwards with tall turban effect.

Regged trimmings and a fringe of opey or a long fluffy silk tassel are to be seen on some. A little foliage and a curious new flower on cubist lines have supplanted the usual artificial flowers. Black is the favorite color for spring models.

AN ALEXANDRIA INTERVIEW

Mrs. Nalls Tells Her Experience.

The following brief account of an interview with an Alexandria woman four years ago, and its equal, will be read with keen interest by every citizen.

Mrs. L. C. Nalls, of Alexandria, says: "I could hardly get around the house my back was so weak and sore. When I got down it was almost impossible to straighten up again. I couldn't rest at night and mornings I felt so weak and tired all over it was all I could do to dress. My kidneys started irregularly and caused me a great deal of misery. My head ached a great deal. It was a dull, steady pain. I got Doan's Kidney Pills at Sumner's Drug Store and the first box did me so much good I used another. My back stopped aching and my kidneys haven't caused me any trouble since."

Mrs. Nalls gave the above statement on April 10, 1916, and on March 15, 1921, she again said: "I was pretty bad off with kidney trouble and nothing helped me the way Doan's Kidney Pills did. Doan's are the best kidney remedy I know of."

To Gas Consumers

We desire to inform the public that owing to some very necessary repairs to our plant, it will be necessary for us to reduce the supply of gas about one-half for a period of three or four days. We, therefore, ask our patrons to be kind enough to economize their consumption of gas for that period.

We take pleasure in adding that our new machinery is on the way, and will arrive shortly. Upon the completion of its installation, we assure the public that they will have an up-to-date gas plant with the most modern and economic appliances for the manufacture of the best grade of gas. With the new machinery the plant will be ample for the needs of Alexandria for the next ten years.

The present repairs will be completed in three or four days, as stated, and we ask the indulgence of the public for that period, and assure them of our hearty appreciation of their co-operation.

THE COMMITTEE ON LIGHT.

SOME DAY
EVERY WIFE WILL KNOW—

"The Truth About Husbands"

WHAT HAPPENS WHEN
THE SHOW DOWN COMES?

While one woman weds—another weeps. There's a girl-wife who never thought of that; who didn't know that men are not born to marriage; but achieve marriage as a special condition of life—a graduation from earlier false ideals and relationship. And suddenly her whole happiness crashed!

Ford

THE UNIVERSAL CAR ANNOUNCEMENT!

Mr. Edsel B. Ford, President of the Ford Motor Company, gives out the following statement:

"The price of the FORDSON Tractor has been reduced from \$700.00 to \$625.00, effective immediately.

"This price change has been made possible through lower costs of materials and the fact that we are now located in our new Tractor Plant with greatly increased economic manufacturing facilities in immediate connection with our foundry and machine shops and large blast furnaces where iron is poured directly from the ore, giving us maximum efficiency with the power to reduce cost of production, and down comes the price in line with our policy to market our products at the lowest possible figure without in any way affecting our high standard of quality.

"We are particularly pleased in being able to bring about this big reduction in price at this time because the farmer needs all the help we can give him and this big cut in price will be the means of placing a valuable power unit within the reach of practically every one of them, not to mention industrial and commercial concerns which likewise have benefited through its use and are already realizing, to a much greater extent, its value as a power and hauling unit. But particularly has the FORDSON Tractor proved a most valuable factor in the saving of farm labor, at the same time increasing the per acre crop yield as well as making possible a utilization of previously uncultivated land, to say nothing of removing no end of idleness.

"There is no question that the use of machine power on the farm is the greatest advancement made in the development of agriculture, not only in money saving and money making results, as well as raising the standards of living on the farm to a much higher level, but because of its proved value in making every type of land more productive, and consequently our desire to place the FORDSON within the reach of all.

"THERE IS NO CHANGE IN THE PRESENT FORD CAR AND TRUCK PRICES, which are already at the lowest possible figure and now with rock bottom reached on the tractor price a further reduction in price of either the car, truck or tractor is out of the question; in fact, the big price cuts have been made in anticipation of continuous maximum production and increases may be necessary before long if a large volume of new business is not obtained. Therefore, present prices of Ford products cannot be guaranteed against possible increases."

Ask for the book "The Fordson at Work," which will be supplied free of cost. Let us demonstrate the value of the Fordson on your farm, in your factory, lumber yard, coal yard, or in any general hauling or power work you have to do and let us have your order for a Fordson.
